

## EVALDAS LAURECKAS

### PROFILE

Date of birth: 25/11/1990

Marital Status: In relationship

Email: [evaldas.laureckas@gmail.com](mailto:evaldas.laureckas@gmail.com)

Mobile: +37067350586

Driving licenses: B, More than 12 years

Nationality: Lithuanian

City: Klaipėdos r.

Address: Slengių kaimas, Žvaigždyno 11-2

### KEY QUALIFICATIONS

Master degree within marine engineering and bachelor degree from faculty of natural science, mathematics computer science department. I am an Innovative software engineer offering over 9 years of experience in the full software development lifecycle – from concept through delivery of applications and customizable solutions. I have been developing system for KRATC, CB&I (USA), HMSREG (Oslo Kommune), Vaultspeed, GoodTill, Banks and in-house business system. I can analyse code and engineer well-researched, cost-effective and responsive solutions. Expert in .NET (VB.NET & C#), Xamarin forms, ASP.NET, PHP, Android (Java), TypeScript, JavaScript (jQuery, Angular, Bootstrap, Node, KnockoutJS, Vue), WebSocket's, Ajax, HTML/CSS (SASS, Less), MySQL, Microsoft T-SQL, MongoDB, Trello, Jira, MVC (Model, view, controller. Domain driven design), Ionic framework, Cordova, Objective-c/swift, UIAutomation, speech integrations, Angular and other modern FE frameworks.

I have ability to quickly acquire the knowledge you need for the task at hand.

#### Experience:

- Analyzing end user needs and then developing software to meet their needs;
- Developing features across multiple applications;
- Reviewing code for quality and adherence to standards;
- Responding promptly to reports of bugs;
- Service level reporting;
- Clearly communicating technical concepts;
- Maintaining proper software configuration management;
- Ensuring proper source code documentation;
- Continuous deployment
- Have experience in fully remote job/positions

### EMPLOYMENT EXPERIENCE

**Company Name: VaultSpeed / The Agile Information Factory (Belgium Company, Remote Job, Individual activity certificate)**

**Full Stack JavaScript Developer / Lead Front End Developer**

**August 2019 – Present**

Maintenance of existing project. Testing, designing and development of new projects in team and alone. Work with JavaScript, node.js & express, angularjs/angular2+, gulp, SASS/SCSS. Rest API, OAuth, Slack, Bitbucket, Git, Jira, Vis.js, semantic-ui, SCRUM, Big Data, Data Warehouse, Data Vault 2.0, Postgress, SQL Server, Oracle, T-SQL, Typescript, Monaco editor integration with custom language, mxGraph integration, Monaco editor integration, Unit tests, loopback 4.

Projects undertaken whilst with VaultSpeed:

- Lots of improvements, features implementations, performance optimizations and bug fixes under companies' main product / platform for Data Vault 2.0.
- Customer support, respond to customer complains / issues and deal with it.
- Multiple dynamic, intuitive, user-friendly, graphical interface components, which is implemented under canvas: Code names: "Source Object Graphical Overview Editor", "Satellites Split Graphical Editor", "Bridges Graphical Editor", "Template Graphical Editor", "Source Data Vault Visualizer", "Data Vault Graphical Editor".
- VaultSpeed studio.
- Pull request reviews, guiding other developers.
- Open-source project contributions.
- Project migration from angularjs to angular 11.
- Graphical component migrations from vis.js to mxGraph.
- API rework. Using loopback 4 to construct Restful.

**Company Name: Danske Bank A/S (Lithuanian Company, Remote Job, Individual activity certificate)**

**Front End Developer**

*February 2021 – Present*

New project creation which is a platform for risk officer to manage requirements which are presented to companies / individual persons as manual or automated questionnaire which is based on companies / individual persons Countries laws. Risk officers based on data presented from requirements can prevent money laundering. Work with angular, ajax, HTML, CSS, jQuery, JavaScript, Node.js, Azure, SASS, Restful, Typescript, angular material, docker, OpenShift, .NET, Unit tests.

Projects undertaken whilst with Danske Bank A/S:

- Anti-money laundering project (Requirement management squad, key name for project is Admin module).

**Company Name: Elsis Pro (Lithuanian Company, Remote Job, Individual activity certificate)**

**Full Stack JavaScript Developer**

*August 2020 – April 2021*

Three of the products were running on old technologies. Java very old version as FE side and old Python for BE side. My main investment in these projects were to upgrade FE side with modern frameworks and ditch the Java (desktop app). Work with DevExtreme framework, angular, Java, Ajax, ActionScript, JBoss, Java Spring, HTML, CSS, jQuery, JavaScript, Node.js, Git, SASS, Restful, Typescript, Bootstrap, Python, SVN, SOAP.

Projects undertaken whilst with Elsis Pro:

- Project code name (G/On Management) upgrade FE side. Migration from Java technology to the Angular 10.
- Project code name (G/On Config) upgrade FE side. Migration from Java technology to the Angular 10.
- Project code name (ENMA / EGNOS / NNMI – network node manager) upgrade from adobe Flash / ActionScript (which is not supported anymore) to modern FE framework Angular 11. Also keep old BE with Java SOAP (that was the clients request). However, a wrapper with REST was created which acted as a bridge between REST and SOAP.

**Company Name: The Good Till CO LTD (UK Company, Remote Job, Individual activity certificate)**

**App Developer**

*June 2018 – July 2019*

Maintenance of existing project. Testing, designing and development of new projects in team and alone. All projects are designed for mobile devices. Most of them are for iOS, couple are for both android and iOS. Work with ionic framework, angularjs/angular2+, firebase, bugs nag, web socket / sync, Cordova, web packs, java, Objective-c/swift, Ajax, HTML, CSS, jQuery, JavaScript, Node.js, Git, SASS, Gulp, PHP, Laravel, Vagrant, Restful, MySQL, Typescript.

Projects undertaken whilst with The Good Till CO LTD:

- A developer of company's main product which is POS system (Based point of sale system).
  - iOS version -> <https://itunes.apple.com/lt/app/goodtill/id1116407057?mt=8>.
- A developer of companies sub project such as admin app.
  - iOS version -> <https://itunes.apple.com/lt/app/goodtill-admin/id1218479938?mt=8>.
  - Android version -> <https://play.google.com/store/apps/details?id=com.thegoodtill.admin>
- A developer of companies sub project such as loyalty app.
  - iOS version -> <https://itunes.apple.com/lt/app/goodies/id1434560257?mt=8>
  - Android version -> <https://play.google.com/store/apps/details?id=com.thegoodtill.loyalty>
- A developer of companies sub project order & collect app.
  - <https://weborder.thegoodtill.com/>
- Integrations with Square payment, Curl payment systems, iZettle payment systems, Yoyo payment systems, Fourth Hospitality system and other popular payment systems.

**Company Name: PCByVoice LTD (UK Company, Remote Job, Individual activity certificate)****Developer***August 2018 – February 2019*

Maintenance of existing project. Testing, designing and development of new projects in team and alone. Projects are a target for disabled people. They can use browsers / windows with only voice and etc. Work with UIAutomation, speech integrations, C#, SQL, JavaScript, CSS, SASS, jQuery, HTML, Git.

Projects undertaken whilst with PCByVoice LTD:

- A developer for Firefox and chrome extension called pcbynumbers. This extension repeatedly checks the page that is active. It marks all the page elements by numbers (these numbers are added under the layout of the page itself. The style, opacity, colours and etc are possible to change by the user). There is active function under this extension. You use that active function by saying you want to use number 4 from the page. This function focuses/click mentioned number. This extension is integrated with companies' speech integration which makes it possible to use extension by voice.
- A developer for application called SpeechStart Pro. It allows to use windows for hands free users. It is marking each element on active window with numbers which are activated by voice commands. Voice commands are coming from company's speech integration. The old version can be checked here <http://www.pcbyvoice.com/shop/pcbyvoice-speechstart-plus/>

**Company Name: STMCB Limited t/a Inspiratia (UK Company, Remote Job, Individual activity certificate)****Full Stack .NET Developer***March 2018 – August 2018*

Maintenance of existing project. Testing, designing and development of new projects in team and alone. Work with .NET (ASP, C#, Visual basic), SQL/T-SQL, Rest web services, Entity framework, Linq (Linq to SQL), Ajax, HTML, CSS, LESS, jQuery, JavaScript (ECMAScript 6), KnockoutJS, SSAS, Node.js, Gulp, Git, TFVC, Jira, MVC (Model, view, controller. Domain driven design).

Projects undertaken whilst with Inspiratia:

- A developer of in-house systems.
  - <http://icms.inspiratia.com> -> in house cms,
  - <http://sms.inspiratia.com/> -> in house cms,
  - <https://www.inspiratia.com/> -> main project

**Company Name: UAB “Omega Technology” Norwegian company (Omega AS, Onsite Job, Employment)****Software Systems Engineer***March 2013 – June 2018*

Maintenance of existing products. Testing and Corrections of issues for new and old projects. Design and implementation of new projects in teamwork and alone. Maintenance of company framework. Work with VB.NET, C#, ASP.NET, Ajax, JavaScript, HTML, CSS, Less, Razor's script, Microsoft SQL Server, Appframe (Framework of the company), DevExpress, Bootstrap, jQuery, Flexpaper, customized Angular, Xamarin.

Projects undertaken whilst with UAB “Omega Technology”:

- A developer for the KRATC project. This was a website and WinForms application for Urban Waste Centre of Klaipėda Region. The aim of the project was to implement an automatic invoice generator and management of the invoices. It has been created <https://mano.kratc.lt> for KRATC customers and win application for KRATC.
- A developer for the DCS (document control system) for “Statoil” (a Norwegian multinational oil and gas company). The purpose of the project was to implement a document review system, approval system, history system and management.
- A developer for MCE project. The aim of the project was to implement an automatic schedule generator and document manager.
- A developer for Pims TAP project. Created solution to export data from SharePoint and import it in projects database based on tables. Merged multiple databases to one.
- Was responsible for the three specific parts of the company framework. Worked with DevExpress reports and WinForms, dlls, web sites and web technologies such as jQuery, JavaScript, Bootstrap, ASP.NET, CSS, HTML, Ajax.
- Was responsible for Web site which includes issue tracker, teamdocs, agenda etc. Site used framework and was used by Omega. Different site versions are used by clients. I had to support all versions. Technologies: JavaScript, Bootstrap, Font-Awesome, ASP.NET, CSS, HTML, LESS, Aspose and etc.
- A developer for Cost Management system dedicated for CB&I. This was mainly the WinForms solution. However, there were some small website apps.
- A developer for in house app called Connect Omega.
  - Android version -> <https://play.google.com/store/apps/details?id=no.omega.connect>
- A developer for HMSREG project (Oslo Kommune). Was responsible of mobile applications. These applications were built on cross platform (Xamarin forms) for iOS and Android. Also helped to implement web site and win client for HMSREG based on Omega's framework.

- Android version - > <https://play.google.com/store/apps/details?id=no.omega.hmsreg>
- iOS version -> <https://itunes.apple.com/lt/app/hmsreg/id1175318603?mt=8>

**Company Name: Launchmen (USA Company, Remote Job, Individual activity certificate)**

**Web Developer**

*January 2015 – February 2015*

Maintenance of existing project. Testing, designing and development of new projects in team and alone. Work with PHP, JavaScript, Ajax, HTML, CSS, LESS, jQuery, CakePHP, Photoshop, Repository systems such as GitHub, WordPress.

Projects undertaken whilst with Launchmen:

- A developer of Business Miracles Site Document – small advertising website <http://www.businessmiracles.com>.
- A developer of Funnel – small advertising website.
- A developer of couple small simple pages Slice/Code.

**Company Name: UAB “Omega Technology” Norwegian company (Omega AS, Onsite Job, Employment)**

**The Trainee Programmer / Tester**

*June 2012 – August 2012*

Software testing and its development, using .NET programming language and database. Company framework improvement works. Work with company framework, SQL server, .NET, Android.

Projects undertaken whilst with UAB “Omega Technology”:

- Created quality assurance application's prototype for Android. This prototype had three parts. The First part is Android application, the second part is a web service written in .NET and third part is SQL server database. Purpose of this application is to quickly check list of specific objects with mobile phone or touchpad to ensure that objects meet their requirements

**Company Name: VŠĮ Technology and Business School (Onsite Job, Employment)**

**Web Developer**

*September 2012 – September 2012*

Development of a new web site for school. Work with PHP, MySQL, JavaScript, HTML, CSS, Yii framework, jQuery.

Projects undertaken whilst with VŠĮ Technology and Business School:

- Created website of a school. Purpose of this project to represent school and its information through a website.

**Company Name: Construction companies (Onsite Job, Employment)**

**The auxiliary worker**

*June 2009 – August 2009*

Auxiliary worker for construction companies at construction sites;

Projects undertaken whilst with Construction companies:

- One of the builders who helped to build up a house in Šventoji;

**EDUCATION**

**Faculty of Marine engineering**

2013-2015

Master degree of Engineering of Technological Information Systems

**Faculty of natural science and mathematics computer science department**

2009-2013

Bachelor degree of Informatics

**Kretinga Marijonas Daujotas secondary school**

1997-2009

Mid degree.

**CERTIFICATES**

70-461 Querying Microsoft SQL Server 2012/2014 – Passed, Score 700

## **PUBLICATIONS**

Business Process Modeling and Simulation: Aspect of Resources Modeling Problems. <http://jmk.infotech.vgtu.lt/>

Analysis of Using Resources in Business Process Modeling and Simulation <https://ortus.rtu.lv>

## **LANGUAGES**

- Lithuanian (Mother tongue)
- English (fluent written and oral, C1-Advanced)
